President's Report with Alan Blackman

WINTER TIME WORKERS

With winter now upon us the Club has become very busy behind the scenes.

Our internal renovations are well underway with completion expected towards the end of July. The work will see improvements to our main hall area, a new office space, better storage, a new toilet for patrons of the cafe, a better gym space and improved use of our internal spaces.

BOARD ELECTION MEETING

The Election meeting will be held on **Sunday 24th June**. This is an important meeting so please come along and help to elect the members of your Board.

CLUB ANNUAL REPORT

The Club's annual report is under preparation and all the Board members are busy compiling the necessary facts and figures for this important document.

MACS MANIACS

Macs Maniacs is up and running every Sunday morning at 9am, come on down for a winter dip and enjoy the fun.

EROSION MANAGEMENT

Board members have also been regularly meeting with officers of Central Coast Council in regard to the erosion protection works that are required to the embankment in front of the Clubhouse.

The process to implement the necessary works is long and complex, but I am pleased to report that many of the necessary steps are beginning to fall into place.

Council's Coastal Management Plan (which describes the necessary works) has been endorsed by the Minister for the Environment and the State's new Coastal Management regulations have been implemented.

Council has completed a concept design for the necessary works and a significant budget allocation has been included in the Council draft 2018/19 works budget. There is still some way to travel before any work is undertaken, but progress is being made.

Mac's Surf Club - All About Inclusion

Our club has been fortunate to be offered a great opportunity, with the assistance and support from Ability Links NSW. We have been granted two wheelchairs, for the use of our club members and the wider community, allowing those with mobility issues the chance of enjoying our beach and club with ease.

We are extremely grateful to Ability Links NSW for funding these new wheelchairs. Hopefully they will be available for use at our club very soon, so watch this space. Several patrol members will be given professional training on how to assist people to use these chairs safely around the beach and water.

We are to receive a 'SandCruiser Beach Wheelchair', which is designed for use on the beach. It can navigate both dry and wet sand, as well as the shallows. It is stable in water levels up to the centre of the tyres, in still water conditions.

We are also receiving a 'Mobi-Chair Floating Beach Wheelchair'. This is an amphibious rolling beach chair.

As the Mobi-Chair® enters the water, the large armrests become stable floatation devices, offering an unparalleled in-water experience compared to standard beach chairs that will leave you at the tideline. There are 3 different seat adjustments, with seat belts for added safety, and the chair folds flat for easy storage.

Looking forward seeing these products utilised on Mac's Beach!
